who have been involved in the reviewing of the articles in this issue of Atom Indonesia Vol. 42 No. 2 August (2016) are greatly acknowledged.

# Instruction to Authors

Starting from 2010 Atom Indonesia Journal published three times a year in April, August and December.

**SCOPE:** The scope of this journal covers experimental and analytical research in all areas of nuclear science and technology, including nuclear physics, reactor physics, radioactive waste treatment, fuel element development, radioisotopes and radio pharmaceutical engineering, nuclear and radiation safety, material science and technology, as well as utilization of isotopes and radiation in agriculture, industry, health.

**LANGUAGE:** All articles should be written in a clear and concise American English.

**TITLES** should be brief and informative. For the article presented in a scientific meeting should be informed in a footnote.

**AUTHORS'** names and addresses (with full postal and email addresses) should appear immediately below the title, followed by Authors' affiliation and address.

**ABSTRACT** containing up to 400 words should be provided in one paragraph, giving a brief summary of the content and conclusions.

**KEYWORDS** containing 4-10 words should be provided for indexing and abstracting.

**MANUSCRIPT** should be written in Times New Roman 11, MS Words for Windows of A4 paper with double spacing. Left, right, top, and bottom margins are 25 mm. Pages should be numbered at the bottom right. New paragraph should be indented by 5 characters. Chapter and sub chapter should be written in bold without number or letter. Chapter should be written in capital. Footnotes should be avoided if they contain information which could equally well be included in the text. The Editor reserves the right to adjust style to certain standards of uniformity. Template of the manuscript can be downloaded from <http://aij.batan.go.id>.

**FIGURES AND TABLES** should be numbered using Arabic numerals and be kept to the minimum consistent with clear presentation of the work reported. Number and title of figures should be put under them, while those of tables should be put above.

**UNITS, SYMBOLS, ABBREVIATIONS AND EQUATIONS:** SI units should be used throughout but other established units may be included in the brackets. Isotope mass numbers should appear at the upper left of the element symbol e.g.  $^{90}\text{Sr}$ . Abbreviations should be defined when they first appear in the text. Equations should be numbered at the right side of the paper in ordinary bracket (no.).

**ACKNOWLEDGEMENTS** is recommended to be given to persons or organizations helping the authors in many ways.

**REFERENCES** should be written as the following examples.
