

The following transfer agreement must be signed and returned to the Atom Indonesia Editorial Office, PPIN-BATAN Kawasan Puspiptek Serpong Tangerang 15310, before the manuscript can be published. Send requests for further information to the Editor in Chief at the above address.

Article Title: Inter-Code Comparison of Computational VERA Depletion Benchmark Using OpenMC, OpenMC-ONIX and DRAGON

Names of All Authors: A. Islam, T. A. Rahim, A. S. Mollah

### TRANSFER OF COPYRIGHT AGREEMENT

Copyright to the above-listed unpublished and original article and subsequent, if necessary, errata, and the abstract forming part thereof, submitted by the above author(s) (collectively, the "Article"), is hereby transferred to the Atom Indonesia (AI) for the full term thereof throughout the world, subject to the Author Rights (as hereinafter defined) and to acceptance of the article for publication in a journal of AI. This transfer of copyright includes all material to be published as part of the article (in any medium), including but not limited to tables, figures, graphs, movies, and other multimedia files. AI shall have the right to register copyright to the Article in its name as claimant, whether separately or as part of the journal issue or other medium in which the Article is included.

The author(s) shall have the following rights (the "Author Rights"):

1. All proprietary rights other than copyright, such as patent rights.
2. The nonexclusive right, after publication by AI, to give permission to third parties to republish print versions of the Article or a translation thereof, or excerpts thereof, without obtaining permission from AI, provided the AI-formatted version is not used for this purpose and provided the Article is not to be published in another journal. If the AI version is used, permission from AI must be obtained.
3. The right, after publication by AI, to use all or part of the Article without revision or modification, including the AI formatted version, in print compilations or other print publications of the author(s)' own works, and on the author(s)' web home page, and to make copies of all or part of the Article for the author(s)' use for lecture or classroom purposes.
4. The right to post and update the Article on e-print servers as long as files prepared and/or formatted by AI are not used for that purpose.

All copies of the Article made under any of the Author Rights shall include notice of the AI copyright.

By signing this Agreement, the author(s), represent and warrant that the Article is original, and that the Article has not been published elsewhere, and is not being considered for publication elsewhere in any form, except as provided herein. If each author's signature does not appear below, the signing author(s) represent that they sign this Agreement as authorized agents for and on behalf of all the authors, and that this Agreement and authorization is made on behalf of all the authors. The signing author(s) also represent and warrant that they have the full power to enter into this Agreement and to make the grants contained herein.
